NOTICE TO SUBSCRIBERS

From and After January 1, 1909, the Price of Edwards Abstract From Records Will Be $2.00 a Month

Up to July 1, 1908, owing to the great increase in the number of recorded papers, the publication of Edwards Abstract from Records had been conducted at a loss, and the publishers thought that by increasing the subscription price and making extra efforts toward procuring new subscribers, the deficit could be eliminated and the sheet put upon a proper basis.

It was suggested at that time, and, in fact, the figures indicated, that the price should be increased to $2 per month, but being reluctant to increase the price at all, the rate was only advanced to $1.50 a month, in the hope that there would be such a revival of business as would preclude the necessity for any further increase.

The experience of the past six months, has, however, resulted in a further deficit, and the publishers find it impossible to produce the Abstract from Records in its present form for less than $2 a month, as the cost of production during the past six months has each month exceeded the revenue derived from subscriptions and such advertising as is carried.

The great and continuous increase in the number of papers filed in the office of the Recorder must be apparent from the sheet itself, and from the monthly reports of the Recorder. This increase in the number of documents, the care that must be taken in preparing the copy for publication, and the limited field upon which the publishers can rely for support for such a publication, renders this step absolutely necessary if the Abstract from Records is to be continued in its present form. The publishers have no desire to discontinue this form and for that reason have borne considerable loss in order that this information may be presented in the form that years of publication has proven to be the one most acceptable to subscribers.

The subscription price of Edwards Abstract from Records, will, therefore, from and after January 1, 1909, be $2 per month.

The publishers feel sure that the service rendered in the past has been satisfactory and that the subscribers to the sheet will understand that the change is one of necessity and not arbitrarily made. As an evidence of this fact we will gladly show our records to any person interested enough to examine them.

Every endeavor will be made to maintain the present high standard of efficiency and accuracy, and the publishers trust that the subscribers to Edwards Abstract from Records will co-operate in the maintenance of this long established institution to the extent of continuing their valued patronage.
